SUMMARY

Quality Control Engineer with 4+ years of experience in software testing across ERP, CRM, and mobile applications. Skilled in manual testing, automation using Selenium, API testing with Postman, and defect management using Azure DevOps. Experienced working in Agile environments and collaborating with cross-functional teams to deliver high-quality software releases.

EXPERIENCE

T&S Co. | Quality Control Engineer

January 2022 – Present

Work on **Monshaat - ERP** Project (Manual Testing)

- Designed and executed 150+ test cases covering core ERP modules.
- Performed functional and regression testing to validate system stability.
- Reduced defect resolution time by 20% through improved collaboration with developers.

Work on **Monshaat – ERP App** Project (Manual Testing)

- Conducted end-to-end testing for mobile ERP features.
- Identified and reported 85+ critical defects before production release.
- Ensured full compliance with business and user acceptance requirements.

Work on **MoEnergy - ResourceAllocation** Project (Automation Testing)

- Developed 50+ automated test scripts using Selenium.
- Increased regression test coverage by 40%.
- Reduced execution time of regression suite by 30%.

Work on **HRSD CRM Pega Project-Delivery Phase** Project (Manual Testing)

- Led User Acceptance Testing (UAT) activities with business stakeholders.
- Prepared detailed test reports and defect summaries.
- Ensured production readiness before system deployment.

Work on **Work on SME Bank – Financing Gateway** Project (Manual Testing)

- Designed and executed 460+ test cases for an online SME financing portal, covering user management, loan product search, and financing request flows.
- Performed functional and regression testing and led defect triage with developers to speed up resolution.

EDUCATION

Information Technology Institute (ITI) – MCIT

Cairo, Egypt

Artificial intelligence Pro (AI Pro)

April 2021 - January 2022

- GRADUATION PROJECT: Sign Language Recognition project can be very helpful for the deaf and dumb people in communicating with others, as knowing sign language is not something that is common to all, moreover, we work on creating automatic editors, where the person can easily write by just their hand gestures

- GPA:3.74
- Degree: Excellent with honor degree
- GRADUATION PROJECT: Intelligent Sales System (ISS) software is an ERP system (Desktop app) used in the sales sector to facilitate sales transactions. – (Excellent)

CERTIFICATES & TRAINING

- Postman From Zero To Hero
- Introduction to SQL
- Introduction to Power BI
- Java Development SE on Maharatech
- Database Fundamentals on Maharatech
- Testing Training at Software Quality Academy
- C# Training
- ASP.NET at Microsoft Smart Village, Cairo
- Trainee at Innove Egypt, Burg El Arab

EXTRACURRICULAR ACTIVITIES

Organizer at web design's competition setting up at KFS University | **April 2017**

SKILLS

Technical Skills

- **Testing:** Test Case Design - Functional Testing - Regression Testing - System Testing - Smoke Testing - User Acceptance Testing (UAT) - API Testing (Postman)
- **Automation:** Selenium WebDriver - SpecFlow - Test Script Development
- **Tools:** Azure DevOps - Postman - Visual Studio - VS Code - Git - SQL Server
- **Programming:** C# - Python - Java
- **Methodologies:** Agile / Scrum - Software Testing Life Cycle (STLC) - Defect Lifecycle

Soft Skills

- **Self Learning:** Continuous learning through courses and hands-on projects
- **Teamwork:** Collaboration in diverse teams with leadership abilities
- **Problem-Solving:** Analytical thinking and creative solutions
- **Communication:** Clear written and verbal communication
- **Adaptability:** Adjusting quickly in dynamic environments
- **Time Management:** Meeting deadlines efficiently

Languages

- **Arabic:** Native | **English:** Very Good

PERSONAL INFORMATION

- **Military Status:** Completed
